Property Description

Room to grow, space to play, and a layout that just makes sense—308 Lancaster Drive is ready for your next chapter. With 4 Bedrooms, 3 Bathrooms, and over 1,100 Sq.Ft. above grade, this family-friendly Bi-Level sits in one of Red Deer's most desirable neighbourhoods, close to top-rated schools, parks, playgrounds, and everything your busy household needs.

The main floor features vaulted ceilings, hardwood floors, and an open-concept design that keeps everyone connected. The Kitchen is the heart of the home, offering beautiful wood-tone cabinets, a corner pantry, a centre island with breakfast bar, and a newer microhood (just 6 months old). The Dining Room

has direct access to the back deck, making it easy to enjoy meals outdoors or keep an eye on the kids while they play. Two Bedrooms are on the main level, including the Primary Suite with a walk-in closet and private 3-piece Ensuite. The 4-piece main Bath includes an oversized linen closet—perfect for keeping towels and essentials organized.

Downstairs, the finished basement gives your family the extra space it needs. A large Rec Room with built-in speakers is ideal for movie nights or hangouts, and two additional Bedrooms mean everyone gets their own space (or you can finally set up that home office or guest room). With a third full Bathroom the lower level is both practical and cozy.

Outside, the fully fenced backyard includes a storage shed and plenty of space for kids, pets, or gardening. You'll also appreciate the two off-street parking spaces—perfect for a future garage build. Recent updates like a brand-new washer and dryer, new light fixtures, and shingles replaced just three years ago mean less to worry about and more to enjoy.

If you've been looking for a move-in ready family home in a location that supports your lifestyle, this one is definitely worth a closer look.
