If you are working with a start up business and wish to leverage the capital you have at your disposal, then this might be the right fit for you-operate your business on the main level and live in one of the suites on the second level-better yet, live in one of the suites upstairs and rent out the other to help cover some of the overhead costs of ownership. This building has freshly renovated upstairs suites-each loft suite features 2 bedrooms, full kitchen/living room, laundry and full bathroom... these units need to be seen to be appreciated!! Combined leasable area on the main floor and open stairway basement totals 4509 square feet, and the combined square footage of the two suites on the second level measures 2889 square feet. Don't miss this

opportunity-this is unique to the marketplace and wont last long! NOTE: Sellers report that average earnings for second floor suites have averaged \$6000 per month as short term rentals.
